

FAMILY CONTEXT IN CHILDREN'S SERVICES:

Service Blueprints

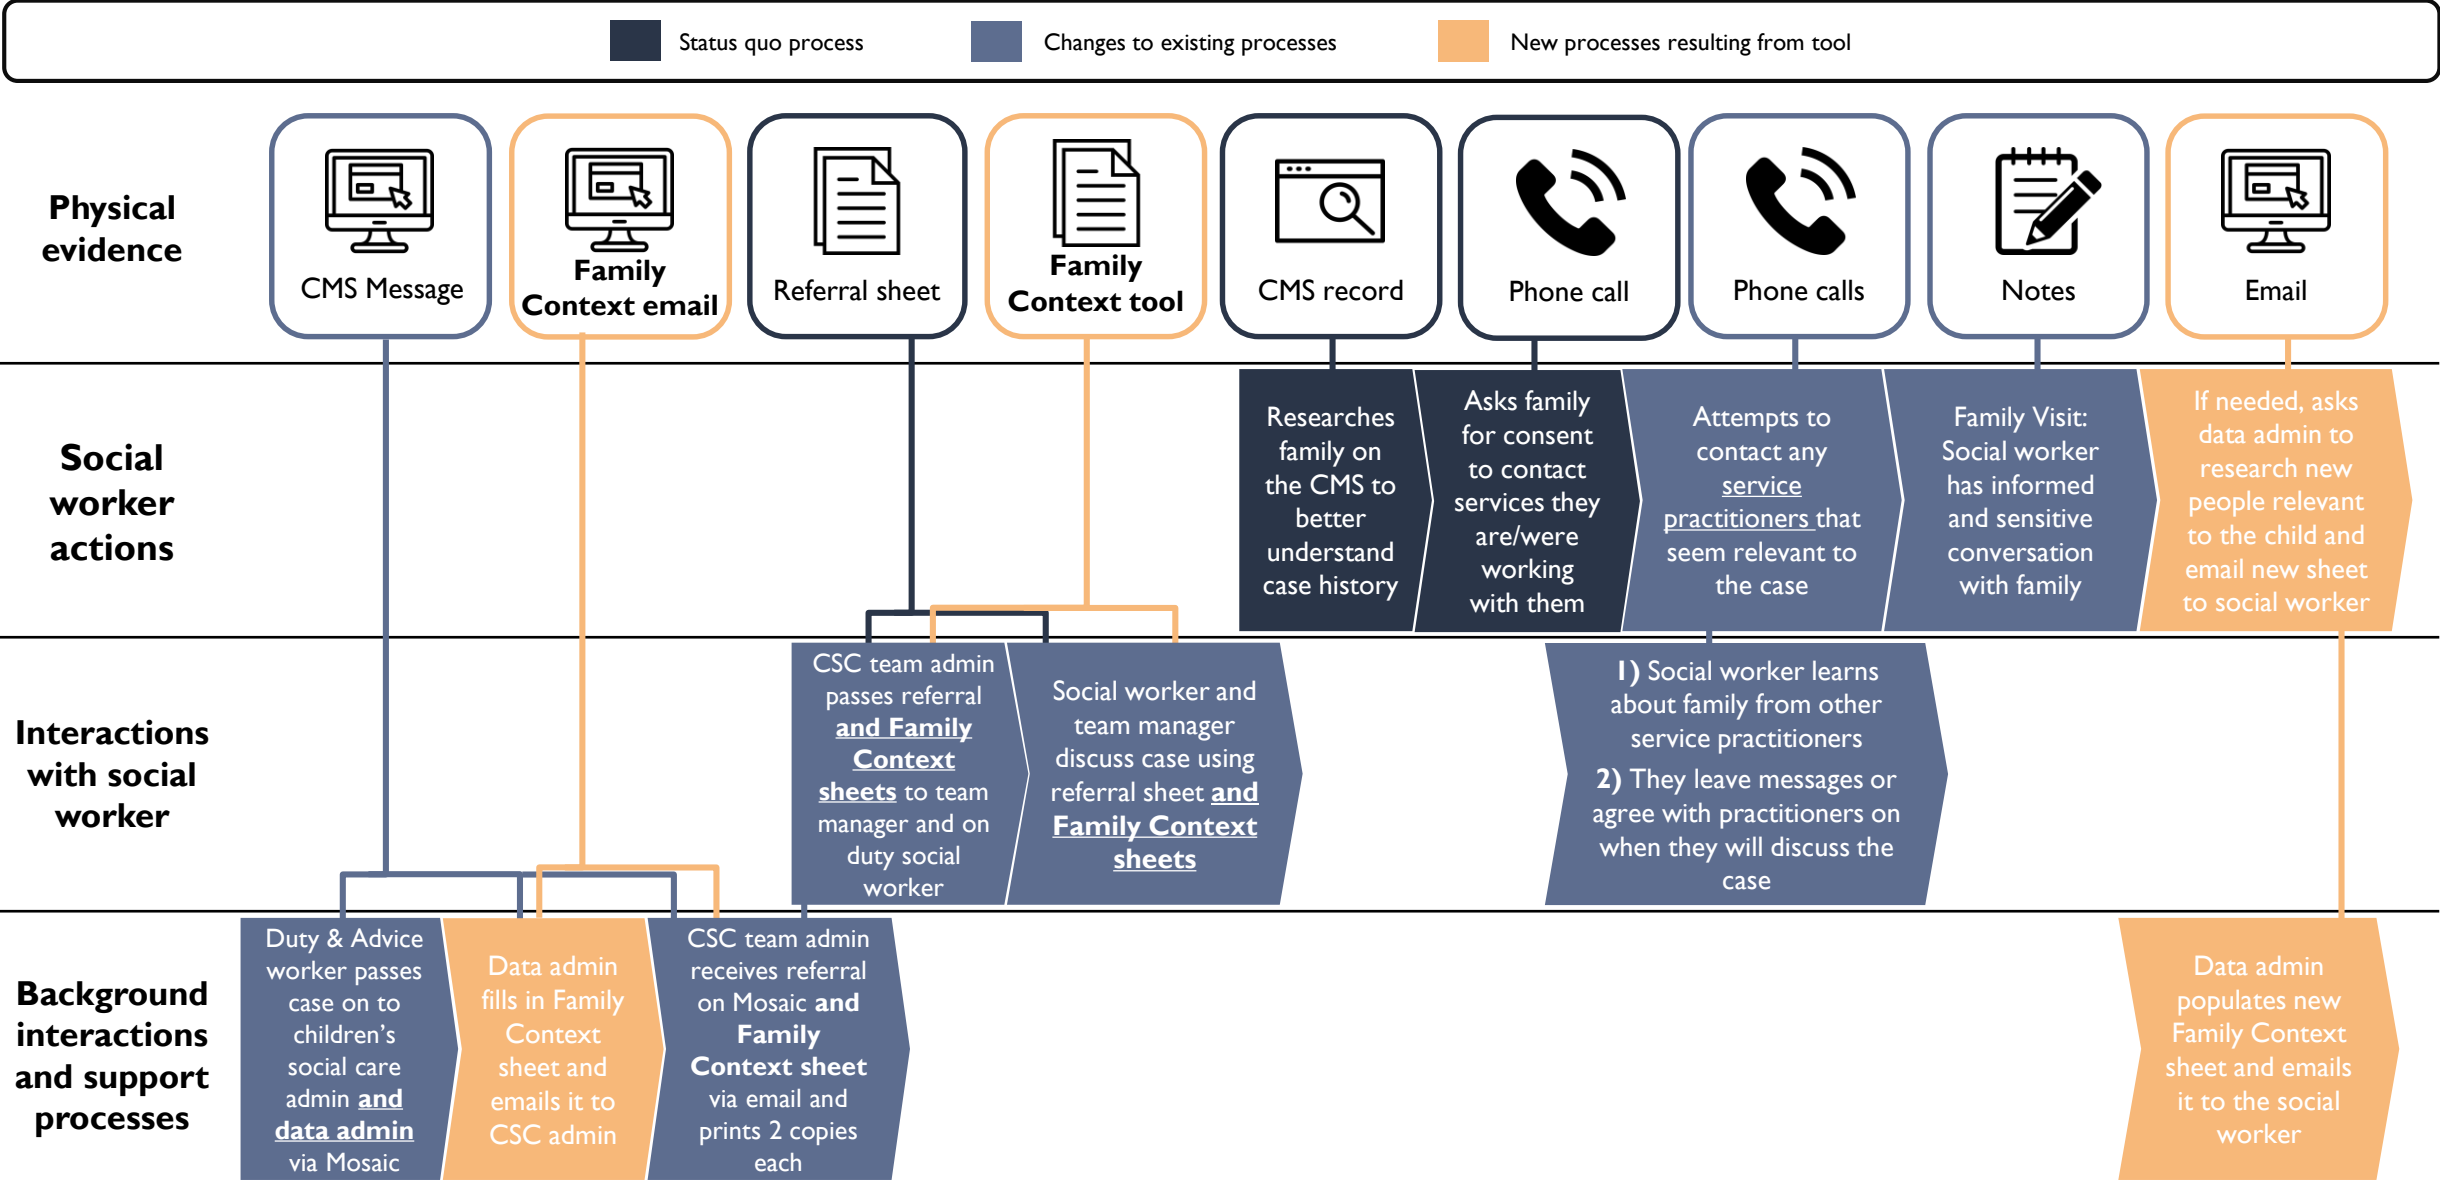

STATUS QUO: LEEDS

*In order to be able to introduce the tool and establish it as part of ‘business as usual’, we need to confirm the details of the current practice model.
What is the journey of a referral from front door to the social worker?*

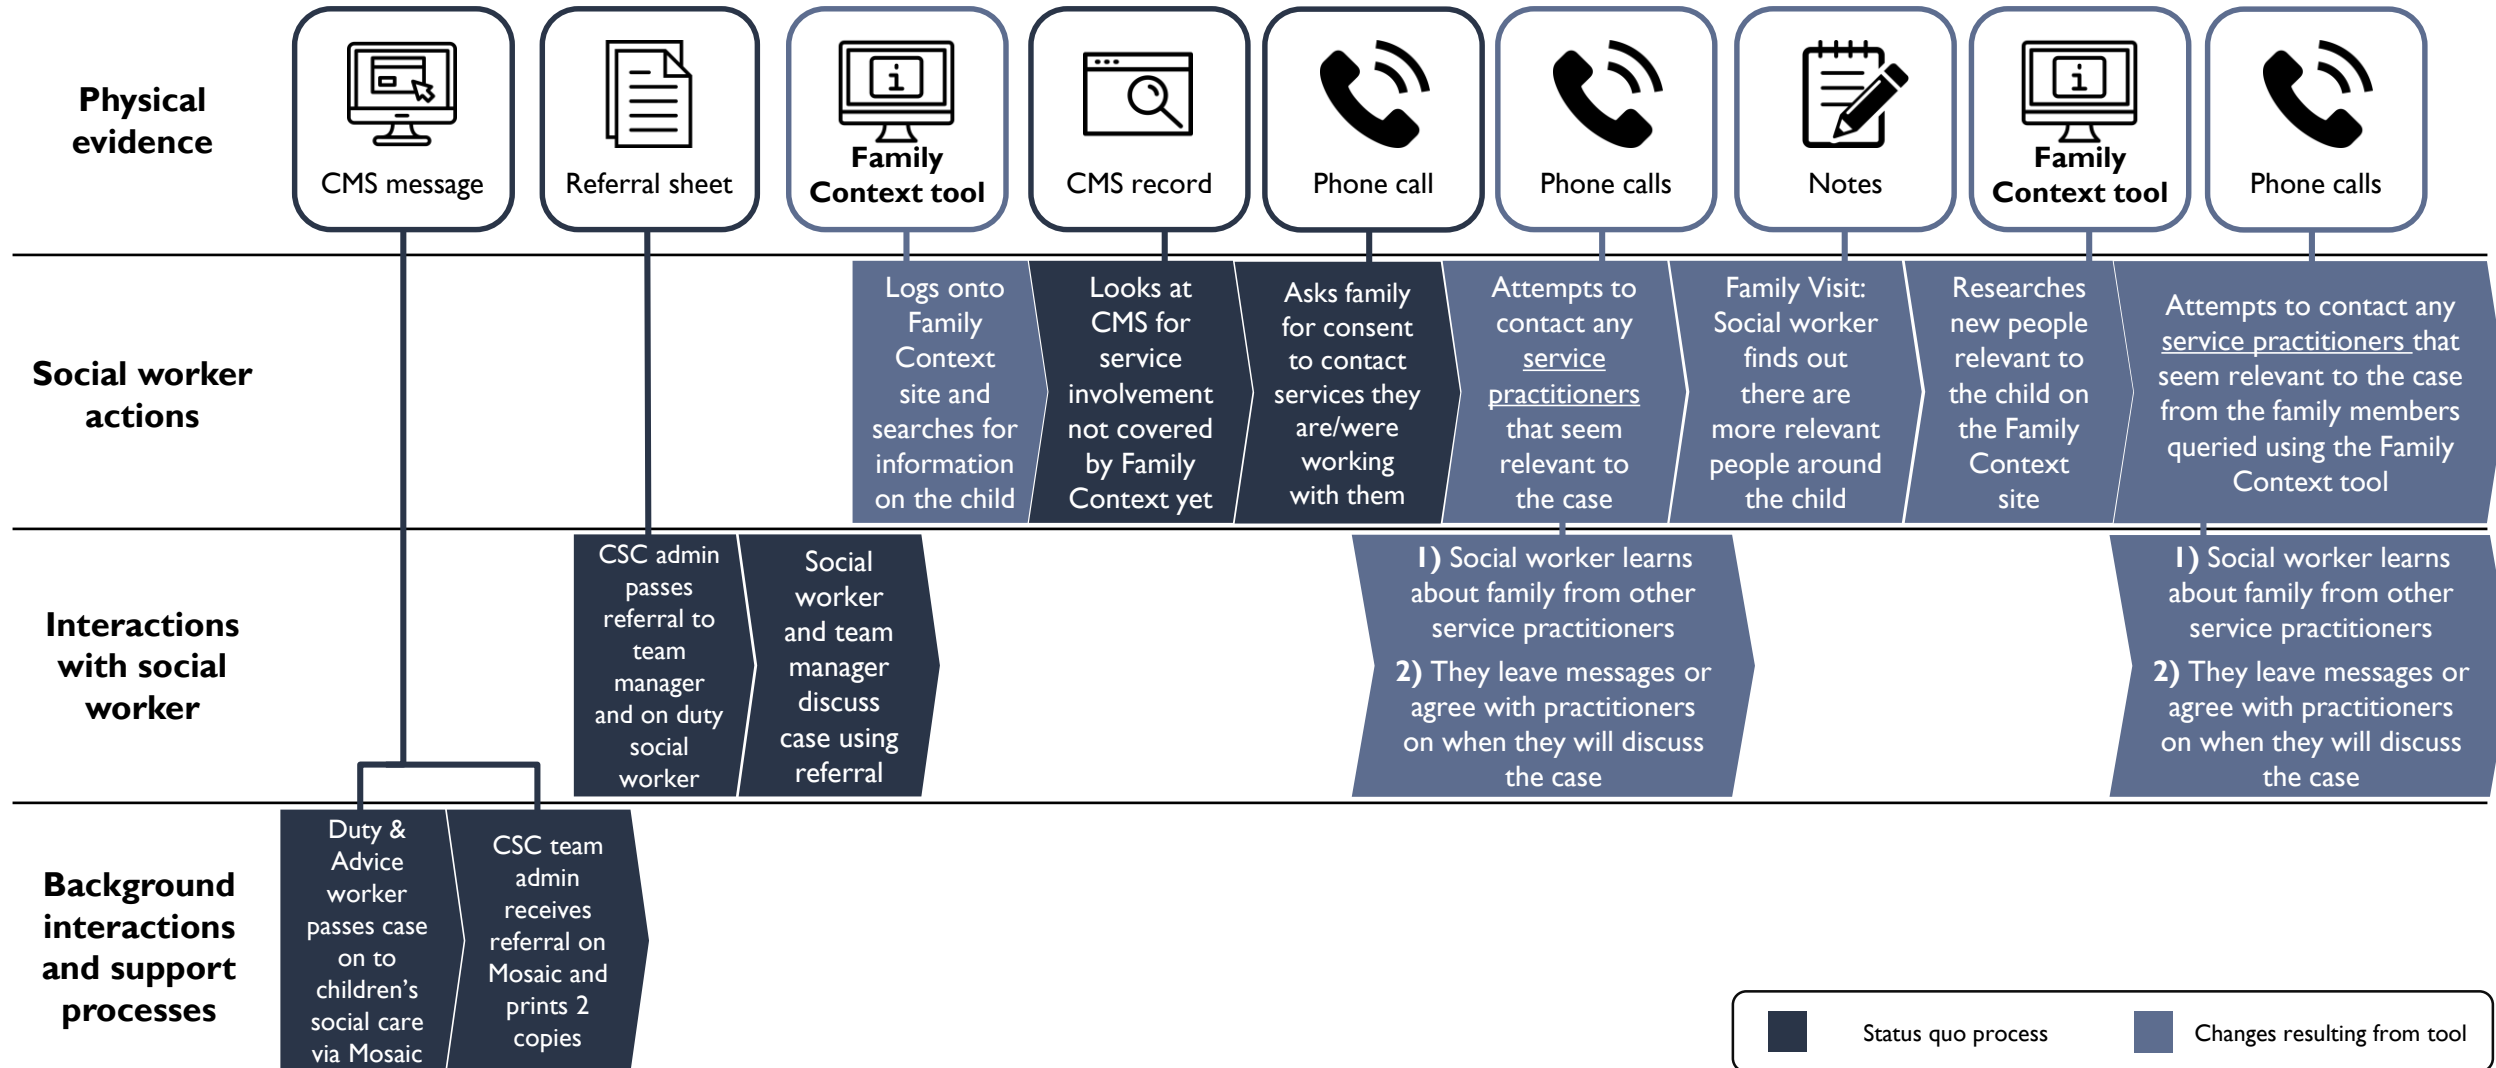

PRIVATE BETA ROLLOUT: LEEDS

To ensure seamless integration into the practice model we need to start with a low-tech solution that enables quick adjustments. It also requires minimal effort on the social worker's side, making it easier to work into 'business as usual'.

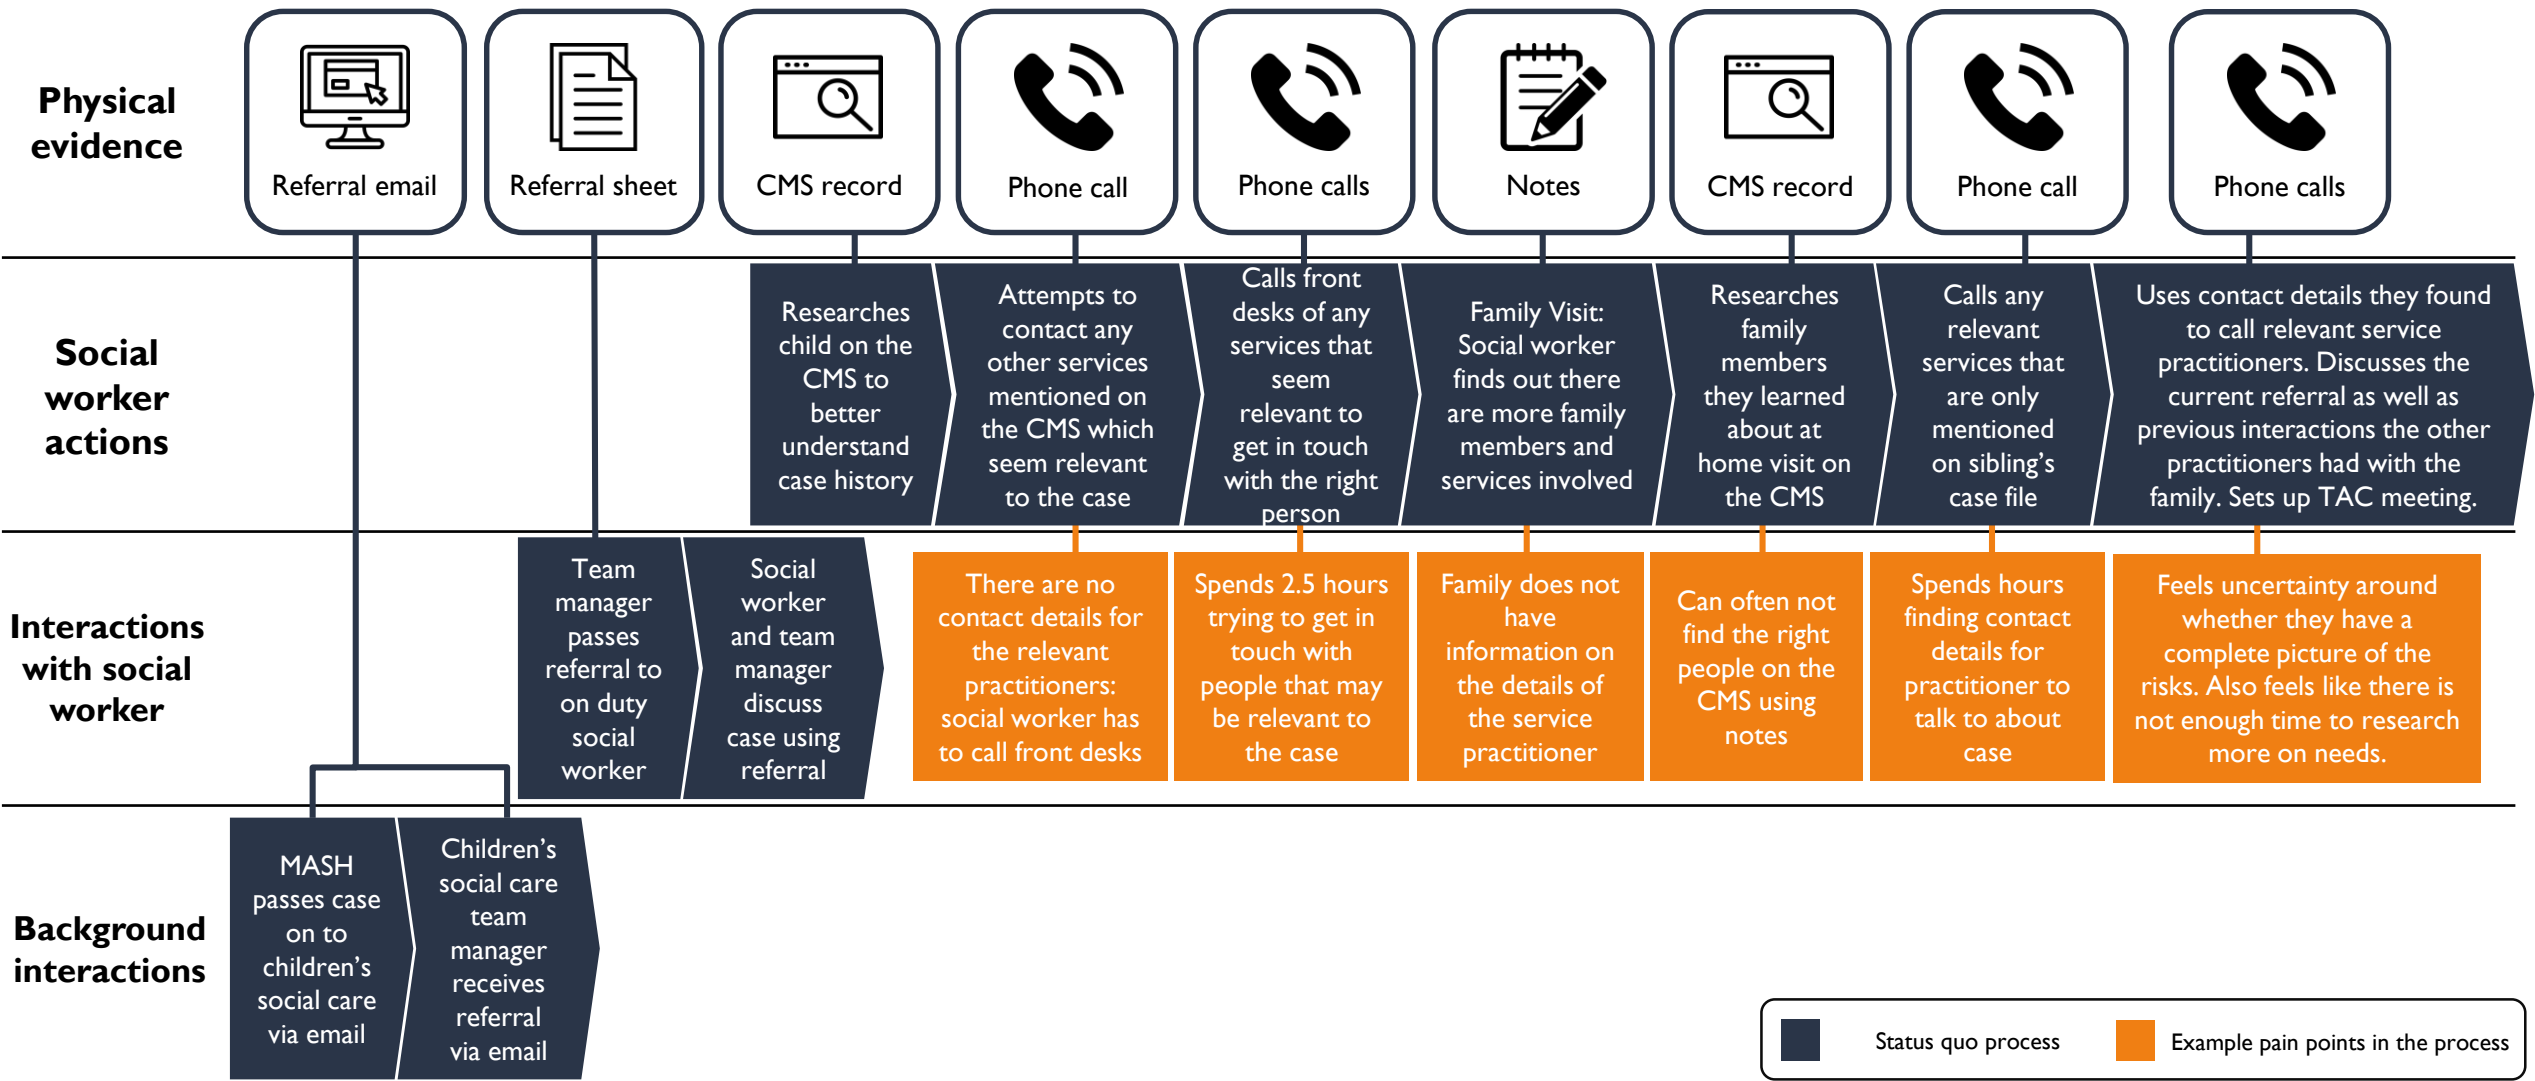

PRIVATE BETA VISION: LEEDS

A fully automated tech solution for the tool has been seamlessly integrated into the practice model and is used as the default option by social workers who want to find out more about the family context for their cases.

STATUS QUO: STOCKPORT (1/2)
